Block 3A, Building 95, Jabriya, Kuwait

---

## EDUCATION

University of Hertfordshire  
Bachelor of Computer Science: Artificial Intelligence  
GPA: 4.1/4.5 First Class Honours

---

## EXPERIENCE

### Cloud and Security Intern

EBLA Computer Consultancy, Kuwait

April 2025 - Present

- Working on real-world cloud and security projects using Microsoft Azure.
- Earned the AZ-900: Microsoft Azure Fundamentals certification.
- Currently preparing for the AZ-700: Azure Network Engineer Associate certification.
- Gaining hands-on experience with Azure services, virtual networks, and basic cloud security practices.

### Mobile Application Developer

Boubyan Consulting, Kuwait

Dec 2024 - April 2025

- Developed a mobile application using Swift, integrating Firebase for secure sign-up and login functionalities.
- Collaborated with a team to incorporate FastBot AI, creating a chatbot feature that enhanced user interaction and support within the app.
- Worked effectively with the team to ensure smooth operation and high user satisfaction throughout the development process.
- Created a sign-up and login page using React and Firebase, ensuring seamless user authentication and a user-friendly interface

### IBM ( international business machines ) RPA

Sep 2024 - Nov 2024

- Developed Attended and Unattended Bots using IBM RPA to automate report processing
  - Attended Bot: Extracted data from user-uploaded reports and loaded it into MySQL tables, then sent email notifications. Unattended Bot: Filtered emails, downloaded report attachments, and extracted data for database insertion, with notifications sent to the sender.
  - Implemented exception handling for invalid inputs, incorrect file formats, and duplicate entries.
  - Published and scheduled the unattended bot to run every 6 hours.
  - Created a dashboard to track report processing statistics.
- 

## COURSES

### AZ-900: Microsoft Azure Fundamentals – Adam Marczak (YouTube)

Covered core Azure services, pricing, support, and cloud concepts with practical demonstrations.

### AZ-700: Designing and Implementing Microsoft Azure Networking Solutions – Alan Rodrigues (Udemy)

Focused on virtual networks, hybrid connectivity, routing, network security, and monitoring in Azure.

### Complete 2024 Web Development Bootcamp – Udemy

Front-end with React.js, back-end with Node.js, REST APIs, Git, and responsive design.

### IOS & Swift - The Complete iOS App Development Bootcamp

Built iOS apps using Swift and SwiftUI with focus on UI design, data handling, and navigation.
